Project Title: Spiritfarer Website

I'd like to build this site as a microsite with multiple pages, focusing on the video game "Spiritfarer." The navigation will likely be located at the top or in the sidebar. The content should be organized as follows:

- Home Page/Introduction
    - Introduce "Spiritfarer" and its key elements.
    - Provide an overview of the game's theme and gameplay.
    - Include visually engaging elements to capture the essence of the game.
- Story and Characters
    - Explore the game's storyline.
    - Describe the main characters and their roles.
    - Include character profiles with images and descriptions.
- Gameplay and Mechanics
    - Explain how the game is played.
    - Discuss core gameplay mechanics.
    - Include tips for new players and advanced strategies.
- Soundtrack and Sound Design
    - Present information about the game's music and sound effects.
    - Share links to sample tracks or videos of the soundtrack.
    - Discuss how sound contributes to the game's atmosphere.
- Reception and Awards
    - Provide an overview of the critical reception.
    - List any awards or nominations received by "Spiritfarer."
    - Include snippets from reviews or player testimonials.
- Behind the Scenes
    - Explore the development process and the team behind "Spiritfarer."
    - Share developer interviews, concept art, and insights into the game's creation.
    - Include any interesting anecdotes or challenges faced during development.
- Gallery
    - Create a gallery page with high-quality images, concept art, and wallpapers.
    - Allow users to download images related to "Spiritfarer."
